

Big Ideas:

Colour, line & texture

1) What is meant by texture?		2) What happens when you mix colours?	3) How can I create abstract art?
Vocabulary		Key Artists	Key Facts
Primary colours	Red, Yellow, Blue These colours cannot be created by mixing.	 Piet Mondrian	 Mondrian loved to create art using straight lines and primary colours. Many artists and fashion designers have been inspired by his work.  Jackson Pollock created art by using the 'drip effect'. Sometimes bugs would get fly onto his work and get stuck!
Secondary colours	Orange, Purple, Green These colours are made by mixing the primary colours.		
Tertiary colours	A range of colours that are made by combining primary and secondary colours.		
Neutral colours	Examples include brown, beige, cream and grey.		
Tints	Adding colour to white to create a new, light colour.		
Texture	How something feels.		
Abstract art	Art that is not meant to be realistic.	 Jackson Pollock	

Learn How To

Key Artist: Piet Mondrian WALT: make a collage in primary colours.	Key Artist: Mark Rothko WALT: create a colour field painting using colours I have mixed.
